Subject Index

A

- A-type granite 275
- allochthonous 297
- alluvial systems 45
- Amadeus Basin; salt influenced deposition of 217
- amino acid racemization 313
- Antarctica; geological mapping of 501
- Archaean
 - gold mineralization 65
 - Norseman granites 559
- asbolan 377

B

- Badger Head, Tasmania 155
- Bajool earthquake 455
- Barmundoo Formation 15
- basin analysis 169
- bathymetry, southern Australia 57
- Beaconsfield Block; tectonostratigraphy 155
- Bellingham Formation 169
- bimetasomatic 485
- biotite 445
- bitterns 471
- Broken Hill Block 319

C

- calcite pairs 131
- Calliope Volcanic Assemblage 15
 - structure and metamorphism of 257
- Cambrian marine sedimentary rocks 155
- Canning Basin; geochemistry and salinity 471
- Capella Creek Formation 15
- carbonate
 - margin 57
 - sedimentology 575
- cave formation (Geological Note) 591
- central Queensland
 - lithology 403
 - seismicity 455
- central Australian playa 1
- Charleston Granite 519
- Clarence-Moreton Basin 31
- clast-in-matrix rock 115
- clay mineral assemblage 345
- cleavage 115, 257
- Cleveland Bay tropical embayment 229
- coastal geology 359
- cobalt mineralization 377
- continental
 - embayment 229
 - shelf morphology 57
- Coopers Creek Limestone 575

D

- deep formation waters 471
- deformation 103
 - sequence of 297
- Devonian
 - limestone 575
 - orogeny and unconformity 257
 - thrusting 297
 - turbidites 169
 - volcanic assemblage 15
- diagenesis 131
- diapirism 217
- displacement 297
- dolomite pairs 131
- dolomitization 131
- dryland salinity 45

E

- Early-Middle Palaeozoic strata 155
- Early Palaeozoic; biotite 445
- Early Proterozoic; slumping 339
- Early Devonian thrusting 155
- earthquake mechanism 369
- earthquakes 455
- East Antarctic Shield 501
- eastern Australia
 - fault planes 369
 - seismic zones 461
- Eastern Goldfields 65
- Ediacaran trace fossils (Geological Note) 293
- emplacement 103
- Emu Fault 527
- endoskarn 485
- epimerization 313
- exhumation of palaeokarst deposits (Geological Note) 591
- exoskarn 485
- extensional basins 103

F

- fan system 169
- fault planes 369
- fault history; tectonic 155
- fission track analyses 31
- Fitzroy River Fault 455
- Flinders Ranges; palaeomagnetism 87
- fluid
 - composition 485
 - inclusions 427
- folding 115, 257
- Foraminifera; benthic 197
- fore-arc basin 15
- fossil assemblage (Geological Note) 293
- fragmentation 115

G

- Gawler Craton (Geological Note) 423
 - U-Pb zircon analysis of 519
- genesis 471
- geochemistry 275, 471
- geochronology 275, 345, 415, 445, 559
- geological structures 45
- geomorphology 345, 359
- glaciation (Geological Note) 271
- Glenelg River Complex 275
- Glenrock Granodiorite 485
- GLORIA survey 57
- Glyde Sub-basin depocentre 527
- gold 65
- Gold Creek Volcanics 109
- Gordon Group 131
- granite; emplacement of 559
- graptolite 169
- Great Barrier Reef shelf 229
- greenhouse effect 359
- groundwater salinity 45
- Gulf St Vincent 197

H

- Hammersley Province 339
- heterogenite 377
- high-resolution seismic survey 57
- Hillgrove Suite pluton 103
- Hodgkinson; Province and goldfield 115
- Holocene
 - raised marine deposits (Corrigendum) 102
 - marine conditions 197
- host rocks 65
- Hunter-Bowen Orogeny 257
- hyaloclastic breccia 109
- HYC lead-zinc deposit 527
- hydrocarbon generation 31
- hydrologic history 1
- hydrothermal
 - activity 87
 - alteration zones 415

I

- I-type granite 275
- imbrication 155
- intraplate seismicity 455
- intrusions 103, 109
- inversion 369
- isotopes
 - carbon and oxygen 131
 - stable 427

J

- Jenolan Caves (Geological Note) 591
- Jurassic; hydrocarbon generation 31

K

- K-Ar ages 275, 415
- kinetics 313
- Koukandowie Formation 31

L

- Lachlan Fold Belt 169, 297
- Lake Amadeus playa 1
- land subsidence 359
- Late Pleistocene; sea-levels 197
- Late Palaeozoic deformation 115
- Late Proterozoic; Amadeus Basin sequence 217
- laterite profiles 387
- limestone; deep-water; redeposited 575
- lithiophorite 377
- lithospheric velocities 141
- Longford Sub-basin till age (Geological Note) 271

M

- mafic; peperite 109
- magmatism 275
- magnetics 319
- mantle plume process (Reply to Discussion) 213
- Marra Mamba Supersequence 339
- Marulan Batholith 485
- Mary Kathleen Fold Belt (Reply to Discussion) 213
- mass transfer 485
- Mathinna Group 169
- maturation modelling 31
- McArthur Basin 109
 - base-metal deposits 527
- mélange 115
- Melbourne Trough 575
- Menzies-Kambalda area 65
- Mesoproterozoic zircon dating 519
- Mesozoic profiles 345
- metallageny 377
- metamorphic 319
 - facies 115
- micrite pairs 131
- Middle Proterozoic; McArthur Basin 109
- mineralization
 - gold 65
 - structures of 65
 - uranium ore 87
- mineralogy 427
- Mississippi Valley-style 471
- Mole Creek, Tasmania 131
- morphostratigraphic markers 387
- Mount Wells region; tin deposits 427
- Mt Gee Sinter 87
- Mt Holly Formation 15
- Mt Morgan Tonalite 15
- Mt Painter 87

N

- Nd/Sr isotopes 275
- New Caledonia weathering 377

New England

- Batholith and Orogen 141
- Fold Belt 15, 103, 257, 403
- orogeny 257
- Norseman; granite emplacement 559
- North Arm Volcanics 415
- North Australian Orogenic Province 427
- northeast Tasmania; turbidites 169
- Northern Territory; peperite 109
- Northern Tasman Orogenic Zone 115

O

- oblique-slip fault 155
- ophiolite 275
- Ordovician
 - carbonate 131
 - turbidites 169
- organic geochemistry 31
- orogenesis 445
- orogeny (Geological Note) 293
- oxygen isotope
 - stage 3 197
 - chronology 345

P

- palaeoclimatic indicators 387
- palaeoclimatology 345
- palaeocurrents 169
- palaeodrainage patterns 169
- palaeogeography 197
- palaeokarst deposits (Geological Note) 591
- palaeomagnetism 87
- Palaeoproterozoic Lincoln Complex (Geological Note) 423
- palaeosea-level curve 197
- Palaeozoic
 - palaeokarst deposits (Geological Note) 591
 - subduction complex 403
- 'Pan-African' orogenic cycle (Geological Note) 293
- parabolic kinetics 313
- paragenesis 427
- peperite 109, 545
- petroleum prospectivity 31
- Pine Creek Geosyncline 427
- pisoliths 387
- playa facies and lake 1
- Pleistocene raised marine deposits (Corrigendum) 102
- polygenetic mélange 115
- Port Sorell; tectonic mélange 155
- Port Adelaide estuary 359
- post-glacial; transgression and sea-level rise 229
- Precambrian
 - basement 297
 - metasedimentary rocks 155
- Prince Charles Mountains 501
- Proterozoic 319
 - porphyry 54
- provenance ages 275
- pull-apart basin 527

Q

Quaternary

- dating; molluscs 313
- sedimentary sequence 1
- quartz-feldspar porphyry 545

R

- racemization; kinetics 313
- radiocarbon 197
 - dating 359
- Radium Ridge Breccias 87
- Rb-Sr ages 415, 445
- Redan Geophysical Zone 319
- regional seismograph network 455
- regolith profiles 345
- relict channels 45
- remanent magnetization 87

S

- S-type granite 275
- Saddleback greenstone belt 445
- salinization 45
- salt influenced deposition and mobilization 217
- Sandon Point (Corrigendum) 102
- sandstone composition 169
- Seabeam survey 57
- sea-levels 57
 - change in 359
 - history of 197
 - rise in 229
- sedimentary evolution 229
- sedimentation 339
- sedimentologic profile 169
- sedimentology 197
- seismic
 - intensities 455
 - study 141
 - zones 461
- seismicity 57, 369, 455
 - of Sydney Basin 461
- shelf sedimentation 229
- sill 545
- Silurian; turbidites 169
- sinter 87
- skarn; development and zonation 485
- slope
 - morphology 57
 - sedimentation 575
- slumping 339
- South Australia
 - continental margin 57
 - Foraminifera 197
- southeast Queensland; hydrothermal alteration
 - zones 415
- Soviet mapping program 501
- Stirling Range Formation; fossils (Geological Note) 293
- stratigraphy 217, 319

strike-slip fault 155
 structure 155
 subaqueous pyroclastic flow deposits 527
 subduction 403
 supergene mineralization 377
 Sydney Basin seismicity 461
 synsedimentary sill 545
 synthetic seismograms 369

T

Tasman Sea; underplating 141
 Tasmania
 fault history 155
 stratigraphic relationships and deformation sequence of 297
 till age (Geological Note) 271
 turbidites 169
 tectonics 155
 tectono-metamorphic evolution (Reply to Discussion) 213
 Tennant Creek porphyry 545
 terrane amalgamation 155
 Tertiary profiles 345
 thermal
 collapse 103
 history 31
 resetting 461
 thrust fault 257, 455
 thrusting 155, 297
 Tia Granodiorite and Complex 103
 till; Poatina (Geological Note) 271
 tin deposits 427
 tuff; geochemistry and diagenesis 527
 turbidites 169, 527

U

U-Pb zircon analysis 519
 Uluru Clay 1

underplating 141
 Undoolya Sequence 217
 upper mantle velocity 141

V

velocity models 141
 volcanic arc 15
 volcanism; Sydney Basin 461

W

Walloon Coal Measures 31
 Wandilla terrane 403
 weathering 345, 377
 tropical 387
 Western Australia
 biotite Rb-Sr dates 445
 Eastern Goldfields 65
 salinity 45
 slumping 339
 wheatbelt 45
 Willyama Supergroup 319
 Winmatti Beds 1
 Woods Reef earthquake 369

Y

Yilgarn
 biotite 445
 Craton 65
 granite 559

Z

zircon
 dating of Charleston Granite 519
 fission track ages 461
 Zn-Pb mineralization 471
